Product Details

Colour: Black
Size Range: UK 3-16
Height: 6 inches
Weight: 938g

PRODUCT DESCRIPTION

The RF611 Dolomite has a fibreglass toecap that shields your toes from a minimum of 200 joules of impact, offering peace of mind on any worksite, while the Activ-Tex® waterproof membrane keeps your feet cool and dry in the most treacherous conditions. The exclusively crafted para-aramid anti-perforation protective midsole developed by Activ-Step® Footwear Components, adds an extra layer of defence against sharp objects you might encounter throughout your workday.

MATERIAL BREAKDOWN

Upper Material: LWG certified water repellent full grain cow leather

Webbing & Trims: 100% post-consumer recycled polyester

Laces: BOA® Lacing system

Thread: Bonded Nylon

EN 2022 SPECIFICATION

Safety footwear is classified in the UK and EU by the EN 20345 standard using a categorisation of S1 through to S7 to quickly determine the level of incorporated safety components. This is further supported by letter codes for additional safety components or tests the footwear has undergone.

For further information contact the Rock Fall sales team.

Always check with your health and safety management if you are unsure of the appropriate specification required by your workplace.

Class 1 refers to footwear made from leather & other materials, excluding all polymeric and all rubber footwear

Class 2 Refers to all polymeric footwear including all rubber footwear.

S3, S5, S7 Specify metallic midsole tested at 1100N.

S3L, S5L, S7L specify non-metal midsole tested at 1100N with a 4.5mm nail.

S3S, S5S, S7S specify non-metal midsole tested at 1100N with a 3mm nail.

Please note that the EN20345:2022 specification **does not** necessarily apply to the footwear represented here, and that there are further specifications attaining to specific safety tests and standards. Always check specification and standards of the footwear before purchase. For more information on specifications and standards, get in touch with our team for complete guide.

WELLBEING & COMFORT

When you spend your working day on your feet, discomfort and incorrect footwear can cause serious long-term issues. That's why our footwear is designed to support your feet where they need it most, and we have a wide variety of styles to fit every kind of foot. Make sure your footbed is providing the correct arch support, and that your footwear is the correct size for you feet.

FOOTWEAR CARE

Keeping your safety footwear in a good condition helps keep them comfortable and extend their useful life. Always make sure to keep the upper and sole clear of extensive mud or residue, using a brush and warm water to clean. Never dry out footwear using heat (such as placing them near a radiator) always allow them to dry naturally. Use a leather nourishment or dubbin wax to keep leather materials from drying out.
