### Experts in Waterproof and Fully Non-Metallic Safety Footwear

There is a strong heritage and history behind our brand, which is 20 years old this year. We are recognised in the industry as a brand that creates fairly priced footwear of the highest quality.

We are a second generation family business and we only manufacture Safety Footwear. We have grown 387% in the past 5 years.

This is substantiated by our other awards successes in recent years. We've been recognised as a leading Midlands Family Business and awarded for our manufacturing diversity achievements.
